

# Snowman Surprise

## Instructions

Small crafters: ask an adult for help with scissors

- The white paper bag will be the base of your snowman
- Lay your white paper bag out and position the googly eyes and buttons where you want them, then remove the adhesive back and stick them on
- Cut a carrot nose out of the orange construction paper and glue it down
- Draw on eyes, a scarf, hands, and anything else you want to complete your snowman's face and clothes
- To make the earmuffs, open up the paper bag and glue a large pom to each side of the snowman's head
- Glue the construction paper strip over the snowman's head with each end touching the top of a pom to finish the earmuffs
- Set your snowman out anywhere as a fun winter decoration!

# Supply List

- A white paper bag (or a brown one!)
- Construction paper and crayons
- Poms or large cotton balls
- You can substitute the buttons and googly eyes with drawing these onto your snowman instead
